⚙️ Backend Tests — pytest + pytest-cov

Test Suites (7 files · 119 tests)

SUITE	TESTS	STATUS
test_auth.py	20	PASS
test_extraction.py	35	PASS
test_history.py	20	PASS
test_profile.py	19	PASS
test_roadmap.py	13	PASS
test_claude_integration.py	7	PASS
test_migrate_roadmap.py	3	PASS
Total	**119 / 119**	**100%**

⚠ Deprecation warnings (non-breaking): `datetime.utcnow()` deprecated in Python 3.12 — affects `auth/utils.py` & `python-jose`. No test failures.

Line Coverage by Module

Minimum required: 80% ✓ (↑ from 91.76% after new test_migrate_roadmap suite)

🤖 AI Eval — Roadmap Generation Quality

OVERALL AI MASTERY SCORE

4.07 / 5.0

Judge: claude-sonnet-4-20250514 · 5 scenarios

4.8	3.6	3.8
RELEVANCE	SPECIFICITY	COMPLETENESS

Scoring criteria

Relevance — alignment with JD requirements
Specificity — technical depth & terminology
Completeness — coverage of all required skills

Score by Role Scenario

Avg of Relevance · Specificity · Completeness

Senior Backend Eng	4.33
Frontend Developer	4.00
Full Stack Engineer	4.00
Data Scientist	3.67
DevOps Engineer	4.33

SCORE DISTRIBUTION

5 Technical Precision (×4) 4 Most Criteria
3 Specificity gaps

Detailed Scenario Matrix

ROLE PROFILE	MISSING SKILLS	REL	SPEC	COMP	KEY FINDINGS
Senior Backend Eng 12 weeks	docker, fastapi, kubernetes, postgresql, redis	5	4	4	Strong milestones (multi-stage builds, Redis pub/sub). Capstone phase slightly rushed at 1 week.
Frontend Developer 12 weeks	react, tailwind, typescript, zustand	5	3	4	Framer Motion omitted despite being in JD. Zustand resources limited to short tutorials.
Full Stack Engineer 12 weeks	aws, mongodb, react	5	3	4	Generic hooks/state mentions vs specific patterns. Node.js/Express integration only implied.
Data Scientist 16 weeks	docker, pytorch, scikit-learn, tensorflow	4	4	3	⚠ SQL missing — explicitly required in JD but absent from roadmap.
DevOps Engineer 16 weeks	ansible, aws, github, github actions, jenkins, kubernetes, terraform	5	4	4	Best overall. Specific milestones (Terraform state mgmt, EKS deployment). AWS section could be more granular.
